

Listing of Claims

The following listing of claims shall replace all prior listings and versions of claims in this application.

Listing of claims:

1. (Original) A method of facilitating an enterprise change, the method comprising: treating two or more information systems as a single logical information system to execute pre-change due diligence and post-change integration of the enterprise change, the enterprise change being at least one of a merger and acquisition; and providing a user interface to allow a user to conduct a merger activity.
2. (Original) The method of claim 1 wherein the user interface is adapted to allow a stakeholder plan and manage the merger activity, the user interface further adapted to allow a user to access one or more merger resources.
3. (Original) A method comprising: providing a single logical physically distributed information system across one or more information systems of at least two enterprises that are being combined; and providing a user interface to access the single logical physically distributed information system, wherein the single logical physically distributed information system executes one or more pre-merger activities, merger activities, and post-merger activities.
4. (Original) The method of claim 3, wherein the user interface is adapted to at least one of a role of the user and a phase of the merger, wherein the user role comprises an internal expert and an external expert of one of the enterprises, wherein the internal expert comprises at least one of an executive, an employee, a manager, an investor, and an owner of one of the enterprises, wherein the external expert comprises at least one of a consultant and an auditor.

5. (Original) The method of claim 3, wherein the role of the user further comprises a stakeholder affected with one or more merger closing consequences, wherein the one or more merger activities comprise an organizational restructuring, a personnel redeployment, a merger project management, a procurement management, a personnel retainment, and an integration of operational services.
